

In the house

Read and write your own text.

My text

In my room, there's a nice bed.
The desk is in front of the window.
There are three posters in my room.

My text

In our apartment there are five rooms: the bathroom, the kitchen, the living room, Mum and Dad's bedroom and the bedroom for my sister and me. In our room there are two beds, one wardrobe, two small desks and two chairs. There are lots of posters in our room. On the posters there are horses and cats. My sister loves horses and I love cats. We do our homework in our room and we play and read there. In the evening we sometimes watch TV in the living room.
